A fine, lightweight yet resistant yarn, made from two individual strands of combed cashmere twisted together. It is extremely comfortable against the skin, an iconic and essential piece, with characteristics that make it ideal for any season.

## CASHMERE ULTRASOFT 2.28

# FALCONERI PRODUCTS

Falconeri's collection takes you on a dreamy voyage to the Aeolian Islands, through barren volcanic landscapes alternating with lush vegetation and the intense blue of the Mediterranean Sea. Soft, natural colours, reminiscent of days spent under the sun and in the sea, bring you back to the natural charm of a summer spent by the coast.

Ready to join you on your adventures, the ultralight cashmere is one of the iconic yarns of the brand. Thanks to its natural characteristics it is the perfect companion for every season: breathable, elastic and thermoregulating.

Another key piece for spring is the reversible sleeveless down jacket in ultralight cashmere and technical water-repellent material, while the extensive linen collection offers unparalleled freshness during summer days.
