### BOAT PRESENTATION :

This beautiful Apremare 48 is full optioned, launched in June 2006. The hull is blue navy painted, full electronics .

This boat is in excellent conditions, very well maintained and ready to go. The Apremare 48 boat is characterized by a traditional design both in the setting and in the materials used for its construction and boiserie, with finishes in mahogany and steel. The layout of the spaces and cabins below deck has been studied in order to offer a layout above the industry average. The kitchen is in central position, arranged in L shape. The outdoor spaces have been designed favoring solutions that have become the cornerstones and success of the range, such as the harmonious shapes of the comfortable sofa and the large sundeck located in the bow, which can also be used during navigation. In the stern area, a functional sofa with sinuous lines that recall the distinctive design of the hull.

The photoshooting has been done in November 2023
